

Easy Lighting, Clean Burning, Environmentally Responsible Fire Logs and Starters

alluma™ Fires Burn Green

- ◆ Made with 100% natural, renewable agricultural resources
- ◆ Contains no wood or petroleum products
- ◆ Emits no greenhouse gases
- ◆ Smallest carbon footprint of any manufactured fire log
- ◆ Leaves no chemical aftertaste in cooking fires
- ◆ 100% recyclable packaging

alluma All Natural Premium Fire Logs and fire starters are made from renewable agricultural resources, including corn, soy and cotton. Instead of chemical odors and greenhouse gases, **alluma** fire logs emit a warm, comforting light that lasts for hours.

The unique full-length wick means alluma fire logs light quickly and burn evenly, eliminating stress, hassle and chemical lighting fluids.

Product line includes four pound fire logs, one pound patio logs and fire starters. **alluma** All Natural Premium Fire Logs are safe for all indoor and outdoor recreational fires.

Patent Pending
