*Now Available...* Professionally Selected Oboes

## **Personalized Service**

Now you can enjoy specialized oboe sales and selection services previously unavailable to the musicians of Chicago. Professional

oboist Shawna Lake will meet with you to discuss your individual needs, preferences and budget. She then selects several suitable oboes direct from manufacturers and from her inventory of new and high quality previously owned instruments.

Your personalized instrument selection can be sent directly to you, and musicians are encouraged to play the oboes for a two week trial period. You also have the option of testing your selection in our acoustically sound studio.

## **Service and Satisfaction**

Each instrument is carefully prepared according to your personal preferences by our experienced technician. The oboes are fully tuned and tested to ensure that

each one you assess sounds its best. If at any point during the trial period

you are not satisfied, another selection will be provided at no extra cost.

New instruments are covered by the manufacturers' warranty, and Oboe Chicago covers used instruments for 90 days.
