

Quality Swimming Pool Construction Since 1981

You are cordially invited... to enjoy the superior service of one of the most reputable firms in the luxury pool market.

PJ's Pools is a locally based, family owned business serving elite residential and commercial clientele in greater Chicago and throughout the Midwest. We are a custom aquatic recreation design and installation firm that's been delighting customers with exacting standards and distinctive taste since 1981.

Whether you envision a natural backyard oasis, an elegant personal sanctuary or a majestic corporate space, our exceptional design staff can bring your concept to life. And it doesn't matter if you start with a clear space or damaged, outdated pool facilities – our experienced technicians have the expertise necessary to handle any project.

In addition to design and installation of custom commercial and residential pools, spas and water features, we are also proud to offer concrete services. We believe having an in-house concrete division offers a better experience for our clients, because it eliminates the concerns that can accompany hiring additional contractors on large custom installation projects.

Our concrete division also provides stand-alone services, and our superior workmanship is so widely regarded we are often contracted to install swimming pool projects by our industry competitors.

Attention to detail, strict adherence to schedule and respect for the budget are our service hallmarks. Our leadership believes in personal accountability, and works directly with each client to ensure the seamless execution of your project's specifications.

Our clients expect more, and we deliver it. This is your opportunity to join their distinguished ranks while enjoying the personal attention of corporate leadership and award winning designers. We invite you to call (847) 381-3105 to discuss your upcoming aquatic installation or renovation project.

Sincerely,

Pierre Lareau
President, PJ's Pools
