BUILDING  
BUSINESS  
WORLDWIDE

## GLOBAL SUCCESS

### HISTORY OF GROWTH

CEC Industries is an ISO9001-2000 certified, privately owned light bulb manufacturing company with an international presence.

Since our launch in 1959, our continued success as a high quality manufacturer and industry partner in the global light bulb market has allowed us to expand manufacturing operations from Taiwan to China and South Korea, in addition to our headquarters in the United States.

## GLOBAL PRESENCE

### INTERNATIONAL INFRASTRUCTURE

CEC is constantly working to build and maintain a global manufacturing and distribution network to better serve our customers in automotive and electronics manufacturing and the industrial aftermarkets.

We understand that offering even the best products won't get us very far without a way to get them to our customers.

In order to support our worldwide manufacturing facilities, we have developed a first class distribution network, with hubs in ten key regions:

- United States
- Canada
- Great Britain
- France
- Spain
- Japan
- India
- Australia
- South America
- Middle East

BETTER  
PRODUCTS

## HIGH QUALITY MANUFACTURING

### SINGLE SOURCE SUPPLIER

With over 1500 products manufactured, we are your single-source supplier for light bulb and related electronic, industrial and manufacturing applications:

- Miniature Lamps
- Halogen Lamps
- Incandescent Lamps
- Fluorescent Lamps
- LED Lamps
- Neon Lamps
- Turn Signal Flashers (LED, Thermal & Electronic)
- Circuit Breakers and Fuses
- Miniature Lamp Sockets
- Custom Wire Harnesses

## LIGHTING SOLUTIONS

### INDUSTRIAL APPLICATIONS

Our light bulb products are used in a broad range of applications across many industries. Our customers include global lighting manufacturers, industrial OEMs and distributors, aftermarket buying groups and distributors, national automotive chains, and regional and local service providers.

The key applications of CEC products are:

- Automotive and RV Manufacturing
- Agricultural and Heavy Duty Equipment Manufacturing
- Marine Lighting Equipment Manufacturing
- Instrument Light Indicators
- Entertainment and Gaming Lights

### CUSTOMIZED SOLUTIONS

We understand that specialized industries can require specialized lighting solutions, and our engineering staff is available to design products customized for your unique applications. From design to manufacturing to delivery, CEC is your single source.

BUSINESS  
PARTNERSHIPS

## STRATEGIC ALLIANCES

### WORKING TOGETHER

As a fully integrated solutions provider with manufacturing, quality assurance and distribution capabilities unmatched in its class, our branding and packaging options are trusted by leaders in the global market.

By working with your organization as a supplier and partner we can leverage existing technology, production, service and distribution channels to help your business reach its potential.

We welcome inquiries from light bulb producers, OEM manufacturers and marketing firms interested in exploring strategic partnerships to better serve all our clients.

## CUSTOMER SERVICE

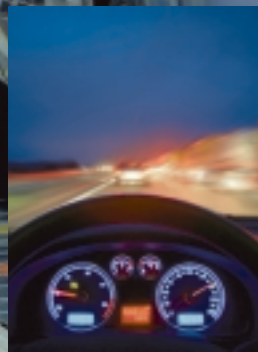

### PERSONAL SERVICE

With a flexible approach to meeting customer requests and a commitment to continuous product innovation, we are constantly looking for new ways to serve the market.

Our thoroughly trained customer service representatives provide live, real-time support, so the person who answers your call is the person who can solve your problem.

### RAPID DELIVERY

You can expect a lot more from CEC Industries than high quality light bulb manufacturing. With more than 20 million items in stock at our U.S. distribution facility, we maintain 24-48 hour shipment turnaround on most orders for the North American market.
